May 14, 2024

To the Board of Directors of Ute Water Conservancy District and Our Customers:

The annual comprehensive financial report (ACFR) of Ute Water Conservancy District (District) for the year ended December 31, 2023, is submitted herewith. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with District management. This financial report has been prepared in conformance with the principles and standards for financial reporting as promulgated by the Government Accounting Standards Board (GASB). It has also been prepared following guidelines recommended by the Government Finance Officers Association (GFOA). We believe that the data presented is accurate in all material respects, that the report is presented in a manner designed to fairly set forth the financial position and the results of the financial operations of the District, and that all disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

Squire & Company, PC has audited the District's financial statements. The goal of the independent audit is to provide reasonable assurance that the financial statements of Ute Water Conservancy District as of and for the year ended December 31, 2023 are free of material misstatement. The independent audit involves examining, on a tests basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Squire & Company, PC concluded based upon their audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements as of and for the year ended December 31, 2023 are fairly presented in accordance with generally accepted accounting principles (GAAP) accepted in the United States and applied to local government units. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

The Reporting Entity

Ute Water Conservancy District was organized in 1956 to provide domestic water service to the rural areas of the Grand Valley in Mesa County, Colorado, under the "Water Conservancy Act"

of Colorado. A 14-member Board of Directors appointed by the Mesa County District Court for over-lapping four-year terms governs the District. The District operates using the Board-Manager form. The Board of Director responsibilities include, but are not limited to, setting District rules and regulations, adoption of resolutions including the annual budget, adoption of water rates and fees, and hiring of the General Manager. The District is legally separate from other local or state governmental units. All operations of the District are accounted for as an enterprise fund.

Economic Condition and Outlook

The Grand Valley is a major service center for western Colorado and eastern Utah and is home to medical facilities, educational facilities, commercial services, and retail outlets that serve a large regional population in addition to the residents of the valley. In addition, the area includes agricultural and manufacturing industries that provide services locally, nationally, and globally. The valley's numerous orchards and vineyards and its proximity to the Grand Mesa, the Colorado National Monument, several National Parks, and other scenic attractions have resulted in defining the valley as a significant tourist destination. The area's mild climate and near proximity to a variety of year-round outdoor activities have contributed to the valley's economy significantly diversifying over the last several decades.

Prior to 2008, natural gas drilling as well as uranium, coal, and other natural resource mining were productive industries for the area. Drops in the prices for natural gas and oil and other minerals mined in the area combined with protracted sub-prime mortgage lending problems, both nationally and internationally, resulted in a slowdown in the area's economy. This prolonged down-turn in the local economy significantly impacted the levels of local housing construction, growth, and employment. However, the diversification of the economy and the desirability of the area have continued to support nominal levels of population growth since 2008. Schedule 15 on page 55 displays demographic statistics related to population, unemployment rates, and labor force changes. Current development indicators such as subdivision development, building permit activity, and the number of water taps sold reflect the increased levels of growth the valley has realized throughout the last few years. See Schedule 3 on page 42 and Schedule 7 on page 47 for a ten-year history of customers, tap sales, and county building permits.

Ute Water Conservancy District currently obtains its raw water supply primarily from the Plateau Creek drainage on the northern slope of the Grand Mesa in western Colorado. Plateau Creek is a tributary of the Colorado River. A prolonged drought in the Colorado River drainage has resulted in the lowering of water levels to critical levels in both Lake Mead and Lake Powell. In order to preserve and protect the District's and the local region's water resources, the District is engaged with stakeholders in Colorado and throughout the Colorado River basin in the development and implementation of drought contingency plans for the Western Slope, the State of Colorado, and larger regional areas.

The Colorado River drainage is home to four threatened or endangered species of fish: the Colorado pikeminnow, the razorback sucker, the humpback chub, and the bonytail chub. One of the areas considered to be a critical habitat for these fish by the United States Fish and Wildlife Service is the Colorado River from Palisade, in the eastern end of the Grand Valley, to the confluence of the Colorado River with the Gunnison River at Grand Junction. This area is known as the "15 Mile Reach" of the Colorado River and lies within the service area of the District.

These four fish have and will continue to affect all water users along the river. The District's management has been actively involved with federal, state, and other local agencies and officials in efforts to protect general water flows and habitat for these endangered fish and thus protect the District's current and future water sources. The District's involvement in this effort will continue into the foreseeable future.

The District continues long-term efforts to expand reservoirs to increase the amount of water the District will have available for its customers in the future. While the District is currently and will continue to improve upon the efficient use of its water and water rights, additional water rights and storage options, either through construction or additional purchases, will be considered.

Major Initiatives

The Board of Directors' adopted strategic plan outlines priorities to support the focus of the District. The plan identifies priorities to deliver high quality water, conserve and protect water supplies, plan for future water supplies, cultivate organizational and operational excellence, and strengthen and maintain positive relationships.

In December 2019, the District Board of Directors unanimously voted to reduce the property tax mill levy assessed to 0.000 mills. This decision was based on the need to decrease the mill levy to remain in compliance with statutory growth limits resulting from increasing assessed property values, the District's anticipated annual savings after the final payment towards the Series 2009 Bonds that was made in 2020, and the goal to reduce the District's reliance on tax revenues.

Since 2019, the District has significantly increased its time and effort in monitoring and, when necessary, responding to legislative activities directly affecting the District in addition to those with potential impacts to the Western Slope, the State of Colorado, and the Colorado River Basin. The renewed level of the District's participation in legislative activities, including the addition of lobbyist services, is expected to continue for the foreseeable future.

In 2017, the District completed construction upgrades to a secondary pump station near the Colorado River necessary to continue the conveyance of water from the pump station upgrades provides a secondary source of water that exceeds the District's current maximum daily demand. Additionally, in 2015 the District purchased property to allow for the development of pre-sedimentation basins that will further increase the water quality of this water source and enhance the District's ability to utilize this water source as an alternate water supply and provide for future growth. Engineering and design work for pre-sedimentation basin infrastructure began in 2020 with construction beginning in early 2023 and startup commissioning occurring later that same year. The pre-sedimentation basin provides the District with redundancy to supplement customers' demands and helps ensure an uninterruptable drinking water supply. The District will continue its efforts to ensure its ability to provide adequate water to its customers into the future and to comply with current and anticipated water quality regulations.

In April 2020, the District completed its Clearwell Optimization & Expansion project. The original clearwell was built in 1965 to receive filtered water from two filters and treat up to 5 million gallons of water per day. A 1975 plant upgrade expanded the clearwell and added two additional filters followed by an additional four filters that were put in service in 2009. The completed project combines filtered water from all 8 filters into a 42-inch finished water line before it enters the clearwell. Newly installed slide gates and a new baffle wall ensure proper

contact time for chemical treatment of filtered water. A chemical vault was constructed to provide chemical injection quills and access to the 42-inch combined finish water line for sample collection. The optimized, expanded clearwell is expected to meet the District's needs through the year 2050 based on engineer projections. The District began a project in the fourth quarter of 2023 to improve the chemical storage and feed process throughout the treatment plant which is scheduled to be completed in 2024.

In 2021, two water tanks were rehabilitated near the treatment facility. These tanks ensure water quality is maintained while being stored for use and also undergo an inspection for structural integrity and upgrades as necessary. The tanks are sandblasted clean to remove all existing coatings and then primed and recoated to extend their useful life. Four water tanks have undergone rehabilitation since 2019 and similar projects are scheduled for other tanks in the distribution system in coming years.

Also in 2021, the District began compliance testing for the Environmental Protection Agency Lead and Copper Rule which includes creating an inventory of the distribution system and recording the materials present. As part of this testing the District is visually identifying the service line material of residential and commercial buildings to ensure there is no lead present in the distribution system. The rule requires public water distribution systems to develop an initial inventory by October 16, 2024.

The District has spent an average of \$5.49 million annually in the last 10 years in upgrading and installing new waterlines and treatment facilities within the District. It is anticipated that similar or larger amounts will be spent annually into the foreseeable future to maintain and expand the District's supply, treatment, and distribution facilities. In addition to ongoing infrastructure maintenance, the major focus of the District's efforts continues to be on increasing waterline sizes in those areas that are experiencing growth, replacing older deteriorating waterlines, and expanding distribution waterlines into developing areas.

In November 2022, the Board of Directors of the District adopted new water and water tap rates. The new water rates were effective February 1, 2023, and are expected to increase water and tap fee revenues by approximately 15%. The District reviews water and tap rates annually to evaluate the need for possible changes. See pages 44 and 45 for the water and tap rate schedules in effect over the last ten years.

Ute Water Conservancy District has fully redeemed its outstanding Series 2012 Water Revenue Refunding Bonds. These were called in June of 2022, paying off the remaining \$13,500,000 and saving the District approximately \$2.5 million dollars in future interest payments. The District's Series 2009 Water Revenue Refunding Bonds matured in June of 2020. See page 29 for additional details of the District's debt.

Future Projects

The District maintains an on-going five-year long-term capital plan and a five-year revenue and expenditure forecast. The principal non-routine expenditure components of the five-year projection are major capital costs. The costs of estimated major capital improvements over the next five years total \$132 million. The major elements of this plan include:

• Water supply reservoir expansion and new development

- Major distribution line replacements, upgrades, and extensions
- Completion of the improved chemical feed system
- Meter installations and replacements
- The ongoing replacement of vehicles and equipment

Financial Information

Internal Controls – Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in accordance with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of the control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. Included in the internal control structure is the use of budgetary controls. The objective of budgetary controls is to ensure compliance with the annually appropriated budget approved by the District's Board of Directors. While the adoption of the annual budget by the Board of Directors appropriates funds at the fund level, the District prepares the budget by line item for each department to improve budgetary controls. The finance committee of the Board of Directors is deeply involved in the budget preparation process and in periodic budget to actual reviews and reviews of water and tap rates.

Cash and Investment Administration – The principal objective of the District's investment policy is safety while attaining an appropriate rate of return. As of December 31, 2023, approximately 71% of the District's investments were held in U.S. government and agency securities and 29% held in State of Colorado local government investment pools. The District earned an average return of approximately 2.71% on cash and investments in 2023 compared to approximately 1.1% in 2022. See pages 22 through 25 for additional details of the District's cash and investments.

Other Information

Independent Audit – State statutes require an annual audit by independent certified public accountants. Squire & Company, PC was selected to perform this audit for 2023. The auditor's report on the basic financial statements is included in the financial section of this report.

Awards – The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Ute Water Conservancy District for its annual comprehensive financial report for the fiscal year ended December 31, 2022. This was the twenty-fifth consecutive year that the District has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted U.S. accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement

Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgment – The preparation of this report could not have been accomplished without the efficient and dedicated assistance of the entire staff of the Finance Department. We would also like to express appreciation to the staff in other departments who provided great assistance in the preparation of this report. Due credit also should be given to the Board of Directors for their interest and support in planning and conducting operations of the District in a responsible and progressive manner.

We would also like to commend our external auditor Squire & Company, PC for their comprehensive and efficient examination of the District's accounts and records for the year ended December 31, 2023.

Respectfully submitted,

General Manager

Independent Auditor's Report

Board of Directors Ute Water Conservancy District

Report on the Basic Financial Statements

Opinion

We have audited the statement of net position of Ute Water Conservancy District (the District) as of December 31, 2023, the related statements of revenue, expenses, and changes in net position and cash flows for the year then ended, and the related notes to the financial statements, which collectively comprise the District's basic financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Ute Water Conservancy District as of December 31, 2023, and the changes in its financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Ute Water Conservancy District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Ute Water Conservancy District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

squire.com

SaltLake City Office 801.533.0409 215 S St ate Street #850 Salt La ke City, UT 8 4111

Orem Office 801.225.6900 1329 South 800 East Orem, UT 84097 Squire is a dba registered to Squire & Company, PC, a certified public accounting firm.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Ute Water Conservancy District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Ute Water Conservancy District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Auditor's Report on the 2022 Financial Statements

The financial statements of the District for the year ended December 31, 2022 were audited by another auditor who expressed an unmodified opinion on those statements dated May 15, 2023.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing

standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the required supplementary information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The schedules of revenue and expenditures – budget and actual (non-GAAP budgetary basis) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of revenue and expenditures – budget and actual (non-GAAP budgetary basis) are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 14, 2024, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Squire & Company, PC

Orem, Utah May 14, 2024

The purpose of the management's discussion and analysis is designed to provide an analysis of the District's financial condition and operating results and to also inform the reader on District financial issues and activities. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements that follow this MD&A.

HIGHLIGHTS – Business-type Activities

- Operating revenues increased by \$2.9 million (or 14.7%) to \$22.7 million in 2023.
- In 2023, net position increased by \$11.4 million (or 4.7%) when compared to 2022.
- Total operating expenses increased by \$0.71 million (or 3.6%) to \$20.7 million for 2023.
- Current assets increased by \$5.3 million (or 10.8%) to \$54.6 million in 2023.
- Capital contributions decreased \$0.9 million (or 32.5%) from 2022 to 2023.

USING THIS ANNUAL REPORT

The financial statements included in this annual report are those of a special-purpose government engaged only in a business-type activity. The following statements and schedules are included:

- **Statements of net position** reports the District's current financial resources (short-term spendable resources with capital assets and long-term obligations). (See page 12)
- Statements of revenues, expenses, and changes in net position reports the District's operating and non-operating revenues by major source along with operating and non-operating expenses and capital contributions. (See page 13)
- **Statements of cash flows** reports the District's cash flows from operating, investing, capital and non-capital financing activities. (See pages 14 15)
- Schedules of revenues and expenditures budget and actual (non-GAAP budgetary basis) reports the District's revenues and expenditures on the same basis as the budget. (See pages 34 35)

CHANGES IN NET POSITION

The following schedule summarizes the revenues, expenses, and capital contributions resulting in the overall change in total net position.

2023	2022	2021
\$ 30,304,787	\$ 24,239,402	\$ 24,542,992
(20,713,439)	(20,123,444)	(19,215,479)
9,591,348	4,115,958	5,327,513
1,843,326	2,732,256	2,243,368
11,434,674	6,848,214	7,570,881
244,841,164	237,992,950	230,422,069
\$ 256,275,838	\$ 244,841,164	\$ 237,992,950
	\$ 30,304,787 (20,713,439) 9,591,348 1,843,326 11,434,674 244,841,164	\$ 30,304,787 \$ 24,239,402 (20,713,439) (20,123,444) 9,591,348 4,115,958 1,843,326 2,732,256 11,434,674 6,848,214 244,841,164 237,992,950

The following table shows the condensed statement of net position for the past three years.

STATEMENT OF NET POSITION

Years ended December 31,	2023	2022	2021
Current assets	\$ 54,621,932	\$ 49,303,236	\$ 57,716,531

Total liabilities and deferred inflows of resources	3,012,752	2,960,360	16,640,158
Net position			
Net investment in capital assets	203,467,187	197,410,131	181,288,339
Restricted	50,000	50,000	1,677,750
Unrestricted	52,758,651	47,381,033	55,026,861
Total net position	\$ 256,275,838	\$ 244,841,164	\$ 237,992,950

The District is a lessor for multiple parcels of land and a single cell tower site. During the year ended December 31, 2022, the District implemented GASB Statement No. 87 requiring the recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and are now to be recognized as inflows of resources or outflows of resources based on the payment provisions of the lease agreements. See pages 26-27 for more information regarding the District's leases.

The decreases in total assets in 2022 was primarily due to the District calling the Series 2012 bonds principal amount of \$13.5 million. Total assets decreased \$6.8 million (or 2.7%) from 2021 to 2022 and increased \$11.48 million (or 4.6%) from 2022 to 2023.

From 2021 to 2022, total liabilities decreased \$13.7 million (or 82.2%). This consisted mainly of the reduction in bonds payable of \$13.6 million.

From 2021 to 2022, net investment in capital assets increased by \$16.1 million (or 8.9%) to \$197.4 million. From 2022 to 2023 net investment in capital assets increased by \$6 million or 3.1% to \$203.5 million. Unrestricted net position decreased by \$7.6 million (or 13.9%) to \$47.4 million from 2021 to 2022. From 2022 to 2023 unrestricted net position increased by 11.3% or \$5.3 million to \$52.8 million. Only the unrestricted net position is readily available to finance continuing and future operations of the water system. During 2022 and 2023, the District continued to expend significant amounts for treatment and distribution system upgrades, system development, and the purchase and development of additional water storage and water rights.

The net position of the District increased to \$244.8 million during 2022, an increase of \$6.9 million over 2021. This increase was made up of \$4.3 million in non-operating revenues over expenses, a \$0.1 million loss in operating income, and \$2.7 million in capital contributions.

In 2023, the District's net position increased to \$256.2 million, an increase of \$11.4 million over 2022. This increase was made up of \$7.5 million in non-operating revenues over expenses, \$2.1 million in operating income, and \$1.8 million in capital contributions.

REVIEW OF REVENUES 2023 2022 2021 Years ended December 31, **Operating revenues** Waters sales \$ 21,759,975 \$ 18,817,660 \$ 18,883,187 562,634 539,571 Fee for tap connections 588,842 Other 438,542 485.053 302,032 Total 22,787,359 19,865,347 19,724,790 Non-operating revenues Tap fee in excess of connection costs 4,176,433 4,728,241 4,878,929 Investment income (loss) 2,254,355 (783, 206)(25, 286)429.351 332,766 Miscellaneous income 1.081.841 Gain (loss) on disposition of capital assets 4,799 (331) (368, 207)4,374,055 4,818,202 7,517,428 Total Total revenues \$ 30,304,787 \$ 24.239.402 \$ 24.542.992

In 2022, operating revenues increased \$0.1 million (or 0.7%) from 2021. This is comprised of increases related to water tap fees collected for connection costs and development fees, totaling \$206,000, less the \$65,500 decrease of water sales from 2021 amounts due to a decrease in billed consumption amounts of approximately 2%. Non-operating revenues decreased \$0.4 million (or 9.2%) from 2021. The decrease of non-operating revenue primarily resulted from a decrease of \$758,000 in investment income from 2021 amounts due to unrealized losses for the year in the amount of \$1,327,000.

In 2023, operating revenues increased \$2.9 million (or 14.7%) from 2022. Water rates were increased by roughly 13.6% (from \$22 to \$25 for the base residential rate) in February of 2023 which accounts for the increase. This was the first rate increase the District has made since they were increased from \$20 minimum to \$22 in 2016. Non-operating revenues increased \$3.1 million (or 71.9%) from 2022. The increase of non-operating revenue primarily resulted from an increase of \$3 million in investment income from 2022 amounts due to increasing interest rates and unrealized losses from previous years recovering values. Included in miscellaneous income is \$761,840 from a judgement awarding damages to the District for a breach of contract claim related to encroachment on easement access and associated relocation costs.

REVIEW OF EXPENSES			
Years ended December 31,	2023	2022	2021
Operating expenses			
Water supply and treatment	\$ 3,496,038	\$ 3,230,972	\$ 2,879,502
Transmission and distribution	4,983,039	4,769,078	4,412,951
Engineering and construction	1,171,343	1,162,582	1,009,107
Administration	2,037,297	1,965,480	1,817,640
Finance and accounting	1,928,054	1,864,707	1,750,084
Depreciation	7,097,668	7,007,500	6,857,327
Total	20,713,439	20,000,319	18,726,611
Non-operating expenses			
Interest expense		123,125	488,868
Total	-	123,125	488,868
Total expenses	\$ 20,713,439	\$ 20,123,444	\$ 19,215,479

In 2022, the District's operating expenses increased \$1.3 million (or 6.8%) when compared to 2021. A portion of this increase resulted from personnel expense increases of \$622,000 that consisted of increases in wage and benefit costs. Additional operating expense increases include an increase of \$290,000 due to increases in chemical costs for water treatment and \$58,000 in increased fuel costs. Non-operating expenses decreased approximately \$0.4 million due to decreased interest expense.

In 2023, the District's operating expenses increased \$0.7 million (or 3.6%) when compared to 2022. A portion of this increase resulted from personnel expense increases of \$571,000 that consisted of increases in wage and benefit costs. Additional operating expense increases included an increase of \$27,000 due to insurance increases, \$48,000 in increased vehicle and equipment service and repair expenses, and \$32,000 increase in outside services due to non-routine repairs and maintenance on District buildings. Non-operating expenses decreased \$0.1 million due to not having interest expense after paying off the District's bonds.

CAPITAL CONTRIBUTIONS

Years ended December 31,	2023	 2022	2021
Developer donated assets and system upgrades	\$ 1,843,326	\$ 2,732,256	\$ 2,243,368

Capital contributions result from the donation of line extensions, subdivision lines, and other system assets from developers. Changes in amounts from year to year are dependent on the amount of residential and commercial development within the District.

CAPITAL ASSETS AND DEBT ADMINISTRATION

(in thousands)

2023	2022	2021
\$ 83,778	\$ 85,251	\$ 86,807
83,330	83,286	79,215
22,259	14,768	15,524
6,873	7,092	7,133
8,153	7,928	6,397
\$ 204,393	\$ 198,325	\$ 195,076
	\$ 83,778 83,330 22,259 6,873 8,153	\$ 83,778 \$ 85,251 83,330 83,286 22,259 14,768 6,873 7,092 8,153 7,928

Capital assets had net increases (additions, retirements, and depreciation) of about \$6.1 million in 2023, and \$3.2 million in 2022.

The major capital asset additions were as follows:

(in thousands)	 2023	2022
Transmission & distribution system upgrades	\$ 3,227	\$ 5,464
Treatment & supply upgrades and improvements	8,144	2,703
Meter & service installations	589	562
Vehicle & equipment purchases	332	522
Reservoir permitting, design, and expansion	 895	1,098
Total capital asset additions	\$ 13,187	\$ 10,349

Additional information regarding capital assets is available in the footnotes to the financial statements (see page 28).

DEBT OUTSTANDING

In 2022, the District reduced the balance of bonds payable by \$13,500,000 to fully redeem all remaining bond amounts. The District did not incur any additional bonds or notes payable in 2022 or 2023. Further debt information is available in the notes to the financial statements (see page 29).

ECONOMIC AND OTHER FACTORS

The economy of the region surrounding the District has grown and diversified over the last several decades. Prior to 2017, the effects of the national economy significantly impacted the region's natural gas and construction industries which in turn resulted in substantially reduced levels of growth of the local area's economy. This slowdown in the local economy appears to have reversed as low residential real estate inventory and reduced foreclosure filings support the renewed levels of residential and commercial construction activity. The region's economic diversification and the desirability of the area as a place to live has resulted in an increase in medical, industrial, recreational, and service-related businesses.

The number of water tap connections (tap sales), county building permits (see page 47), and subdivision development reflect the renewed level of growth the valley is experiencing with historically low lot inventory for new development. The District continues to plan for future growth with the continued emphasis on upgrading the District's treatment and distribution systems. The determination of future water needs and the purchase and development of additional water rights and water sources continue as a priority for the District.

In November 1992, the voters of Colorado approved Amendment 1, commonly known as the Taxpayer's Bill of Rights (TABOR), which added a new section 20 to Article X of the Colorado Constitution. (See Note I to the financial statements on page 31). Under TABOR, the District is subject to statutory revenue growth limits and cannot receive over 10% of its revenues from taxes and remain an enterprise under state law. Enterprise status under state law allows the District to remain exempt from many of the provisions of TABOR. Since 2005, the District periodically reduced its reliance on property tax revenues by reducing its mill levy from 2.000 mills to 0.000 mills effective January 2020.

FINANCIAL CONTACT

The District's financial statements are designed to present financial statement users (water users, taxpayers, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. If you have any questions concerning this report or need additional financial information, please contact the Finance Department, Ute Water Conservancy District, P.O. Box 460, Grand Junction, Colorado 81502.

NOTES TO FINANCIAL STATEMENTS

As of and for the years ended December 31, 2023 and 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Ute Water Conservancy District (District) is a political subdivision of the State of Colorado with all the powers of a public or quasi-municipal corporation. The District was created April 4, 1956, by decree of the District Court in and for Mesa County as provided by Colorado Revised Statutes, Title 37, Article 45; the "Water Conservancy Act". The District is organized to provide domestic water service to most rural areas of the Grand Valley in Mesa County in central western Colorado. Water service is also provided within the City of Fruita. A Board of Directors consisting of fourteen members governs the District. The members of the Board of Directors are appointed for staggered four-year terms of office by the Mesa County District Court.

The financial statements of the District have been prepared in accordance with generally accepted accounting principles (GAAP) accepted in the United States and as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District applies all applicable GASB pronouncements. A summary of significant accounting policies follows.

This summary of significant accounting policies of Ute Water Conservancy District is presented to assist in the understanding of the District's financial statements. The financial statements and notes are representations of the District's appointed officials and management, who are responsible for their integrity and objectivity. These accounting policies have been consistently applied in the presentation of the financial statements.

Reporting Entity

The reporting entity of the District includes those activities and functions over which the District is considered to be financially accountable. The District's financial statements include the accounts and operations of all the District's functions. The District's functions include the construction and maintenance of domestic water supply and delivery lines and the operation of a domestic water system. The District is the primary government and does not include any component units using the criteria set forth in GAAP.

Basic Financial Statements

The District is a special-purpose government engaged only in a business-type activity. For this type of government, only enterprise (proprietary) fund financial statements are presented.

Basis of Presentation - Fund Accounting

The accounts of the District are organized and operated on a fund basis. The operations of a fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues, and expenses. The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to those applicable to businesses in the private sector.

NOTES TO FINANCIAL STATEMENTS

As of and for the years ended December 31, 2023 and 2022

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

GAAP sets forth minimum criteria for the determination of major funds to be presented in the financial statements. Since the operations of the District are accounted for on a fund basis in a single enterprise fund, it is the only fund presented.

Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of net revenues; (b) has third-party requirements that the cost of providing services, including capital costs, be recovered with fees or charges or; (c) has a pricing policy designed for the fees and charges to recover similar costs. Enterprise funds may also be used to account for operations (a) that are financed and operated in a manner similar to business enterprises and where the intent of the governing body is that costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Basis of Accounting

Basis of accounting refers to when revenues or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. Proprietary (enterprise) funds are presented on a flow of economic resources measurement focus. With this measurement focus, all assets, deferred inflows, liabilities, and deferred outflows associated with the operation of a fund are included on the statement of net position. Net position is categorized as net investment in capital assets, restricted, and unrestricted. Fund operating statements present increases (e.g., revenues and contributions) and decreases (e.g., expenses) in net position. Proprietary (enterprise) funds are presented on an accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when incurred. The District records unbilled water service receivables as revenue at year-end.

The District reports unearned revenue on its statement of net position. Unearned revenues arise when potential revenue is measurable but has not yet been earned. In subsequent periods, when the steps required for the revenue to be earned are met, the liability for unearned revenue is removed from the statement of net position and revenue is recognized. Unearned revenues include prepaid user charges, billing corrections, and account adjustments (e.g., leak adjustments) resulting in customer account credit balances where the credit will be applied against future account usage charges.

NOTES TO FINANCIAL STATEMENTS

As of and for the years ended December 31, 2023 and 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Budgets and Budgetary Accounting

The Board of Directors approves the annual budget in accordance with Colorado Revised Statutes and prior to December 31. The District adopts a resolution appropriating sums of money for the ensuing fiscal year. The statutory details of the budget calendar are as follows:

December 15,	Statutory deadline for certification of mill levies to the Board of County Commissioners
December 22,	Statutory deadline for Board of County Commissioners to levy all taxes and certify the levies

Property Taxes

In December 2019, the District Board adopted a resolution to set the mill levy for 2019 property taxes to be collected in 2020 at 0.000 mills. This resulted in property taxes receivable and deferred inflows being reduced to \$0 at the end of 2019. Unknown amounts related to delinquent property and specific ownership taxes will continue to be intermittently received in future periods until remitted in full.

The District's budget is prepared on the accrual basis of accounting modified to include the proceeds of debt issuance in revenues, to include capital expenditures and debt service principal payments in expenditures, to exclude contributed capital from revenues, and to exclude contributed capital, depreciation, and amortization from expenditures.

The District's level of budgetary control (the level at which expenditures may not exceed the appropriated amount) is established at the fund level. A supplemental budget appropriation may be adopted by the Board of Directors when necessary. The District does not record commitments related to unperformed contracts for goods and services outstanding at year-end. Appropriations lapse at year-end.

For the year ended December 31, 2023, the District's original appropriation and expenditures were limited to \$26,423,513. The District did not make any supplemental appropriations for the year ended December 31, 2023. For the year ended December 31, 2022, the District's original appropriation and expenditures were limited to \$37,884,963. The District did not make any supplemental appropriations for the year ended December 31, 2022.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the District considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents.

Inventory and Prepaid Items

Inventory held by the District consists of repair and replacement parts, treatment chemicals, and equipment fuel and is stated at cost using the average unit cost basis.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

NOTES TO FINANCIAL STATEMENTS

As of and for the years ended December 31, 2023 and 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Investments

Colorado statutes specify investments meeting defined rating and risk criteria in which local governments may invest, which include:

- Obligations of the United States and certain U.S. government agency securities
- Local government investment pools
- General obligation and revenue bonds of U.S. local government entities
- Certain international agency securities
- Guaranteed investment contracts
- Commercial paper
- Written repurchase agreements collateralized by certain authorized securities
- Banker's acceptances of certain banks
- Certain money market funds

The District's investment policy limits District investments to the first three listed categories except for investments specifically approved by the District's Board of Directors. The District's investment policy does not include limits of investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Colorado statutes limit authorized investments to investments having maturities of five years or less, unless the entity's governing body specifically authorizes longer maturities.

Capital Assets

Capital assets (property, plant, and equipment) are recorded at cost, or in the case of donations, at their acquisition value on the date donated. Cost includes the capitalization of materials and direct labor for additions made by District personnel. The District's capitalization level for capital assets is \$5,000.

Maintenance, repairs, and renewals that neither materially add to the value of the property nor appreciably prolong its life are charged to expense as incurred. Upon the disposition of property, infrastructure or equipment, the costs and related accumulated depreciation are removed from the corresponding accounts and gains or losses are included in income.

Depreciation is computed using the straight-line method over estimated useful lives, as follows:

Buildings and improvements	30 to 50 years
Utility plant and system	30 to 60 years
Storage reservoirs and tanks	10 to 50 years
Equipment	3 to 25 years

NOTES TO FINANCIAL STATEMENTS

As of and for the years ended December 31, 2023 and 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Compensated Absences

Vacation and sick leave balances accrue immediately upon full-time employment up to a maximum amount of 35 days. Unused sick leave at termination, which had accumulated prior to August 1, 1987, is paid to the remaining eligible employees upon termination at 17% to 20% of full pay rates as of August 1, 1987. There is no compensation upon termination for unused sick leave accrued after August 1, 1987. All compensated absences liabilities include salary-related payments, where applicable.

Deferred Outflows/Inflows of Resources

A deferred outflow of resources represents a consumption of net assets that applies to future periods and will not be recognized as an expense/expenditure until such future period. A deferred inflow of resources represents an acquisition of net asset that applies to future periods and will not be recognized as revenue until the future period.

Leases Receivable

The District is a lessor for multiple parcels of land and a single cell tower site, and recognizes leases receivable and deferred inflows of resources related to leases in the financial statements as required by *GASB Statement No. 87, Leases.* At the commencement of a lease, the lease receivable is measured at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflows of resources are initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. The deferred inflows of resources are recognized as revenue over the life of the lease term in a straight-line method.

Key estimates and judgments include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The District uses U.S. Treasury rates at the time a new lease is executed as the discount rate.
- The lease term includes the noncancelable period of the lease plus any option periods that are likely to be exercised.
- Lease receipts included in the measurement of the lease receivable are composed of fixed payments from the lessee.

The District monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease receivable and deferred inflows of resources if changes occur that are expected to significantly affect the amount of the lease receivable.

NOTES TO FINANCIAL STATEMENTS

As of and for the years ended December 31, 2023 and 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Net Position

Investment in capital assets is intended to reflect the portion of net position that is associated with nonliquid capital assets, less outstanding capital-related debt. Restricted assets are assets that have thirdparty (constitutional/statutory or bond covenant) limitation on their use. The District typically uses restricted assets when the restriction first makes them available but reserves the right to selectively defer their use.

Restricted – Constitutional Emergency Reserve – Provisions of the Colorado constitution require the District to maintain a portion of its fiscal year spending in reserve which is restricted for declared emergencies only. As of year-end 2023 and 2022, the restricted amount of net position for constitutional emergency reserves was \$50,000.

Reclassifications

For comparability, 2022 amounts have been reclassified where appropriate to conform to the year 2023 financial presentation.

Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets, deferred outflow of resources, liabilities, deferred inflow of resources, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

As of and for the years ended December 31, 2023 and 2022

NOTE B – CASH AND INVESTMENTS

The captions on the statements of net position of the District related to cash and investments are as follows:

	2023	2022
Cash and cash equivalents	\$ 15,877,785	\$ 16,014,991
Restricted cash and cash equivalents	50,000	50,000
Cash held for others	260,192	479,609
Investments	33,304,760	29,509,830
	\$ 49,492,737	\$ 46,054,430

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles and GASB Statement No. 72. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The composition, including level under the GASB 72 fair value hierarchy, where applicable, of all cash and investments held by the District at December 31, 2023 and 2022 is as follows:

	2023	2022
Cash on hand	\$ 1,700	\$ 1,700
Cash in bank account(s)	2,732,997	1,283,577
Investment pools:		
COLOTRUST EDGE (GASB 31)	11,111,022	11,902,437
CSAFE CORE (Level 1)	2,082,066	2,877,277
CSAFE Cash (Level 1)	260,192	479,609
U.S. Treasury Notes (Level 1)	16,708,060	11,582,800
Federal Agency securities:		
Federal Home Loan Bank (Level 1)	9,758,780	9,397,640
Federal Home Loan Mortgage Corporation (Level 1)	6,837,920	8,529,390
	\$ 49,492,737	\$ 46,054,430

Deposits

District policy requires that the District only have deposits with eligible public depositories as defined in Colorado statutes including the Public Deposit Protection Act (PDPA) of 1989. Under PDPA, the depository is required to pledge eligible collateral having a fair/market value at all times equal to at least 102% of the aggregate public deposits held by the depository not insured by the Federal Deposit Insurance Corporation. The District's cash deposits at December 31, 2023 and 2022 had bank balances and carrying balances as follows:

	2023	2022
Bank Balance	\$ 1,008,362	\$ 1,632,087
Carrying Balance	710,470	1,283,577

NOTES TO FINANCIAL STATEMENTS

As of and for the years ended December 31, 2023 and 2022

NOTE B – CASH AND INVESTMENTS – continued

Investments

The District's investments include external investment pool portfolio options provided by Colorado Surplus Asset Fund Trust (CSAFE) and Colorado Government Liquid Asset Trust (COLOTRUST). CSAFE and COLOTRUST are local government investment pool trust funds registered with the Colorado Securities Commissioner pursuant to the Local Government Investment Pool Trust Fund Administration and Enforcement Act.

CSAFE Cash investments follow GASB 79 valuing investments at their amortized cost basis, CSAFE Core investments use GASB 72 valuing investments at fair value. Both investment pools are considered Level 1 inputs according to the hierarchy disclosure requirements of GASB 72.

COLOTRUST EDGE measures its investments at fair value in accordance with Paragraph 41 of GASB 79 and Paragraph 11 of GASB 31, and therefore a Participant's investment in COLOTRUST EDGE is not required to be categorized within the fair value hierarchy for purposes of GASB 72.

As of December 31, 2023, the District had \$13,453,280 in the CSAFE and COLOTRUST government investment pools established for local governments in Colorado to pool surplus funds. The underlying investments of these pools consist of U.S. Treasury and agency securities, the highest rated commercial paper, and repurchase agreements collateralized by U.S. Treasury and agency securities.

Investments in the CSAFE Cash investment pool portfolio option are valued at \$1 net asset value (NAV) per share and the underlying investments held in the portfolio are valued at amortized cost which approximates fair value. There are no limitations on withdrawals in the CSAFE Cash option. The CSAFE Cash portfolio is rated AAAm by Standard & Poor's.

Investments in the CSAFE CORE investment pool portfolio option are valued at \$2 net asset value (NAV) per share and the underlying investments held in the portfolio are valued at fair value. Participants are limited to three (3) redemptions per month in the CSAFE CORE option. The CSAFE CORE portfolio is rated AAAf/S1 by Fitch.

COLOTRUST EDGE is a variable net asset value (NAV) local government investment pool that offers weekly liquidity to Participants. COLOTRUST EDGE has a NAV that is managed to approximate a \$10.00 transactional share price and there are no limitations on withdrawals, though a 5-day settlement period applies. COLOTRUST EDGE is rated rated AAAf/S1 by Fitch.

NOTES TO FINANCIAL STATEMENTS

As of and for the years ended December 31, 2023 and 2022

NOTE B – CASH AND INVESTMENTS - continued

In 2014, the District was appointed administrator and custodian of the Grand Valley Fund. The Grand Valley Fund, and any earnings, are to be used for water supply, water quality, and/or water infrastructure projects benefiting the Grand Valley. There are six Grand Valley entities, including the District, that determine the use of these funds. In 2023, these entities authorized net disbursements of \$236,216, decreasing the December 31, 2022 balance of \$479,609 to \$260,192 at December 31, 2023 after interest earnings totaled \$16,799 in 2023. Funds and associated earnings being held for the Grand Valley Fund are invested in CSAFE Cash investment pool portfolio and offset by a District liability in the same amount.

Investments in U.S. Treasury securities at December 31, 2023, were as follows:

F	ace Amount	e Amount Security		Coupon	Yield	Carrying Value

\$	17,000,000	Total Federal Agency securities				\$	16,596,700

All of the Federal Agency securities held by the District at December 31, 2023, are rated AA+ by Standard & Poor's and Aaa by Moody's.

NOTES TO FINANCIAL STATEMENTS

As of and for the years ended December 31, 2023 and 2022

NOTE B – CASH AND INVESTMENTS – continued

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to a depositor or investor. To limit credit risk, the District's investment policy limits District investments to obligations of the United States and certain U.S. government agency securities, specified local government investment pools, and general obligation and revenue bonds of United States local government entities.

Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of a bank failure, the District will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investments or collateral securities that are in the possession of an outside party. The District's deposits are either covered by depository insurance or are collateralized under the Colorado Public Deposit Protection Act and are therefore not deemed to be exposed to custodial credit risk. The District's investments are not deemed to be exposed to custodial credit risk are held by the District or by the District's custody agent in the District's name.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The District does not place a limit on the amount that may be invested in any one issuer. Investments amounting to 5% or more in any single issuer of the District's investments total include U.S. Treasury securities, investment pools, and securities of the Federal Home Loan Bank, and the Federal Home Loan Mortgage Corporation. These investments are 35.7%, 28.8%, 20.9%, and 14.6% of the District's total investments at December 31, 2023, respectively.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District manages its exposure by coordinating investment maturities with anticipated cash flow requirements, establishing a pattern of rolling maturity dates, and employing a buy-and-hold strategy.

NOTES TO FINANCIAL STATEMENTS

As of and for the years ended December 31, 2023 and 2022

NOTE C – LOANS RECEIVABLE

The purpose of the District's loans receivable was to provide various property owners, formerly on a well system, with the ability to compensate the District for the costs of infrastructure capital improvements related to new and upgraded water services in a service area of the District. The District installed the required infrastructure capital improvements. Certain property owners in the affected service area elected to pay infrastructure charges in full rather than elect the District's loan option. The District views the loan principal repayments as contributions to be used to offset costs for the new and upgraded water services and associated distribution system component improvements that are owned and maintained by the District. The loans receivable originated in 2009 and are due in installments through 2039. The loans bear interest at 6% and are collateralized by liens on the affected properties.

Loan Receivable activity for the year ended December 31, 2023, was as follows:

	H	Beginning	Principal			Amounts due within		
		Balance	R	leceived	End	ling Balance	C	one year
Loans receivable	\$	134,526	\$	12,795	\$	121,731	\$	5,751

Loan Receivable activity for the year ended December 31, 2022, was as follows:

	E	Beginning	Р	Principal		Amour	nts due within	
		Balance	R	eceived	End	ing Balance	c	one year
Loans receivable	\$	147,543	\$	13,017	\$	134,526	\$	5,703

NOTE D – LEASES RECEIVABLE

The District leases multiple parcels of land and a single cell tower site, and recognizes leases receivable. Leases receivable consist of agreements with others for the "right-to-use" the underlying land asset at various locations owned by the District. The remaining terms of the agreements that were used in calculating the leases receivable range from 1 to 4 years. For the fiscal year ended December 31, 2023, the District recognized \$121,222 in lease revenue and \$9,415 in interest revenue, and the outstanding receivable amount was \$192,753.

For the fiscal year ended December 31, 2022, the District recognized \$61,850 in lease revenue and \$2,257 in interest revenue, and the outstanding receivable amount was \$96,476.

Compensated absences payable	526,913		515,528	(440,181)		602,260		450,832
Total long-term liabilities	\$14,140,130	\$	515,528	\$ (14,053,398)	\$	602,260	\$	450,832

NOTES TO FINANCIAL STATEMENTS

As of and for the years ended December 31, 2023 and 2022

NOTE G – DEFINED CONTRIBUTION AND DEFERRED COMPENSATION PLANS

Through District resolutions, the District provides retirement benefits for all full-time employees through a defined contribution plan administered by the Colorado Retirement Association (CRA). In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings.

Under the defined contribution retirement plan, the District is required to match the employee's required contribution of 8% to the plan, and will match up to a total of 10% of employee contributions to the employee's 401(a) account. Employees are eligible to receive employer matching contributions to their 401(a) plan following 90 days of employment. The plan provides retirement benefits based upon the employee's vested account. A participant becomes 100% vested upon completion of five years of covered service. Amounts forfeited by employees who leave employment before their 401(a) plan becomes fully vested are divided up among the remaining participants in the plan. Under the plan, employees direct the investment of both the employee and employer contributions among several investment options available through an outside plan administrator.

District employees may defer a portion of their compensation under District sponsored Deferred Compensation Plan options created in accordance with Internal Revenue Code Section 457. Participants can elect to contribute to a 457(b) plan that defers the tax liability of contributed amounts from their compensation until it is distributed to them, or they can elect to make contributions to a Roth designated 457(b) plan in which the participant elects to include contributed amounts in gross taxable income. Distributions from either plan option may be made only at termination, retirement, or death.

For the years ended December 31, 2023 and 2022, total payroll, covered payroll, and the employer contributions to the plan were as follows:

	2023	2022
Total payroll	\$ 6,911,958	\$ 6,476,869
Covered payroll	6,738,458	6,270,032
District contribution	651,110	505,862
Percent of covered payroll	9.7%	8.1%

The laws governing deferred compensation plan assets require plan assets to be held by a Trust for the exclusive benefit of Plan participants and their beneficiaries. Since the assets held under these plans are not the District's property and are not subject to District control, they have been excluded from these financial statements.

NOTES TO FINANCIAL STATEMENTS

As of and for the years ended December 31, 2023 and 2022

NOTE H – RISK MANAGEMENT

The District purchases general liability, property, and various other types of insurance through commercial carriers to provide coverage for all significant losses, claims, and judgments. There have been no significant reductions in insurance coverage, nor have settlement amounts materially exceeded coverage for the current or prior three years.

NOTE I – TAX, SPENDING, AND DEBT LIMITATIONS

In November 1992, the voters of Colorado approved Amendment 1, commonly known as the Taxpayer's Bill of Rights (TABOR), which added a new Section 20 to Article X of the Colorado Constitution. TABOR contains tax, spending, revenue, and debt limitations and certain election requirements that apply to the State of Colorado and all local governments. TABOR is complex and subject to interpretation. The District's management believes the District is in compliance with the provisions of TABOR as it is understood from judicial interpretations, legal opinions, and commonly accepted practices.

NOTE J – RECONCILIATION OF REVENUES AND EXPENSES - BUDGETARY BASIS TO GAAP BASIS

	2023	2022
Excess (deficiency) of revenues over		
(under) expenditures (Budget Basis)	\$ 5,387,816	\$ (10,026,497)
Adjustments:		
Less:		
Depreciation	(7,097,668)	(7,007,500)

Amortization of bond premium	-	113,217
Amortization of deferred lease revenue	111,340	93,063
Personnel costs capitalized	199,564	178,285
Total Adjustments	6,046,858	16,874,711
Change in Net Position (GAAP Basis)	\$ 11,434,674	\$ 6,848,214

NOTES TO FINANCIAL STATEMENTS

As of and for the years ended December 31, 2023 and 2022

NOTE K – COMMITMENTS AND CONTINGENCIES

The District is an objector in various water matters pending before various courts. The District opposes applications for water rights made by third parties in order to protect the District's water rights.

The District is involved in several claims as the result of the normal conduct of District business. District management believes that these will not have a material effect on the financial statements of the District.

SUPPLEMENTAL INFORMATION – FINANCIAL

Notes: After property taxes are levied by the Board of Directors, the Mesa County Assessor may adjust the valuation of various properties due to corrections, abatements, refunds, and adjustments to the property tax rolls. The tax levy as shown is the original levy as approved by the District.

Property tax levies and collections exclude specific ownership taxes collected.

Schedule 18

OPERATING AND CAPITAL INDICATORS

	2023	2022	2021
Size of watershed (square miles drained)	504	504	504
Terminal reservoirs storage capacity (acre-feet)	8,736	8,736	8,736
Miles of raw water delivery pipeline	21.2	21.2	21.2
Treatment plant capacity (MGD)	34.0	34.0	34.0
Treated water storage (MG)	27.5	27.5	27.5
Miles of transmission & distribution pipeline (by pipe diameter):			
4 inches and smaller	279.52	280.58	282.40
6 inches	108.81	109.92	109.90
8 inches	372.76	370.71	364.04
10 inches to 18 inches	126.81	126.89	125.85
Larger than 18 inches	49.39	49.40	49.41
Total miles of distribution pipeline	937.29	937.50	931.60
Number of fire hydrants in distribution system	4,830	4,762	4,679
Notes: MGD = Million gallons of water per day			
MG = Million gallons of water			
Acre-foot = $325,829$ gallons			
Additional operating indicators can be found in schedules 3 and 4.
